TAKWEYAT FOUNDATION

Takweyat at a glance

A Coalition of Professionals. A Commitment to Society.

Takweyat International Organization

Who we are

Takweyat International Organization (تقویت) is a dynamic collective of civil society members originating from diverse professional backgrounds. We are lawyers, doctors, educators, and social workers who believe that true societal strength comes from active, on-ground participation rather than passive observation. Grounded in core Islamic values of justice, ethical responsibility, and brotherhood, we pool our own professional expertise and time to intervene where society needs it most.

What we do

- **Fighting Hunger:** Serving regular meals to the underprivileged to ensure no one sleeps hungry.
- **Ramadan & Spiritual Activities:** Hosting mass Iftars and fostering a faithful, ethical environment during the holy month.
- **Disaster Relief:** Serving on the front lines during national crises, such as providing rescue and relief during Pakistan's two recent major floods.
- **Free Legal Aid:** Standing up for social justice by providing free legal representation and advice to those who cannot afford it.
- **Education & Career Counseling:** Visiting middle-class schools and colleges to guide youth, raise awareness, and provide career counseling.
- **Medical Camps:** Collaborating with volunteer doctors to set up free health camps in vulnerable areas.
- **Community Support:** Helping out wherever there is a need, stepping in to support the community in everyday challenges.

Our five pillars

Educational Reforms & Youth Empowerment

To provide ideal, accessible education for under-developed children and implement stage-specific visions for schools, colleges, and universities while promoting core Islamic societal values.

Hunger Eradication & Spiritual Enrichment

To ensure "bread for everybody" because every human deserves a good meal, while cultivating an environment of faith, ethics, and brotherhood, especially during Ramadan.

Human Rights Protection & Social Justice

To defend human rights globally, fight legal battles against violations, and ensure every citizen has access to justice and legal awareness.

Disaster Management & Climate Change

To provide immediate frontline relief during natural disasters while researching and implementing long-term solutions to climate change.

Healthcare Access & Medical Security

To provide essential medical security to the vulnerable and ensure poverty does not prevent anyone from receiving basic healthcare.

Our long-term plans

The Educational Plan: The Global Vision

To democratize high-quality, ethically rooted, and technologically advanced education, making it accessible to every individual regardless of their geographic or financial background. We aim to cultivate critical thinkers who are proud of their mother tongue (Urdu) and heritage, fluent in future technologies (AI), aware of their constitutional rights, and equipped to contribute to global social justice.

The Global Legal Aid and Justice Plan: The Manifesto of Rights

To establish Takweyat (تقویت) as the ultimate, uncompromising legal vanguard for the oppressed, operating on a spectrum that spans from domestic household disputes to international tribunals. We aim to dismantle systemic exploitation, whether executed by historical colonizers, modern corporate monopolies, or corrupt state apparatuses. Our goal is to reclaim stolen wealth, rewrite draconian laws, set global progressive precedents, and ensure that every human, animal, and ecosystem is protected by an impenetrable shield of legal and moral justice.

How to take part

We do not ask for your funds; we ask for your expertise. Write to contact@takweyat.org.
